### INTERNATIONAL BACCALAUREATE SCHOLARSHIP VALUED AT \$15,000 AT WINTHROP UNIVERSITY

Winthrop University is committed to increasing diversity on campus. For this reason, we recently introduced the International Baccalaureate scholarship. This scholarship is guaranteed as long as the GPA requirement is met! Winthrop University works with rolling admissions and is therefore **still accepting applications for the fall 2011 semester!**

The International Baccalaureate scholarship is awarded to all international freshman applicants who:

- Complete the IB Program (Diploma or Certificates) through the senior year of high school
- Have a 3.0 cumulative grade point average (GPA) on their higher level courses

The scholarship is valued at **\$15,000** per academic year and is renewable every semester for up to four years as long as a minimum cumulative GPA of 3.0 is maintained.

For further details on all of our international student scholarships please visit <http://bit.ly/jagQfV> or contact Fred Schlingemann by email: [Schlingemann@winthrop.edu](mailto:Schlingemann@winthrop.edu) or phone: 00-1-803-323-3395.

## UTAH STATE UNIVERSITY OFFERS ALUMNI LEGACY NONRESIDENT SCHOLARSHIP

Did one of your parents earn a degree from USU? If so, you can now attend Utah State and the nonresident portion of tuition will be waived!

Follow your parents' footsteps and become an Aggie. We'd love to have you here! To qualify for the Alumni Legacy Nonresident Scholarship, a future Aggie must:

- Be admitted
- Have at least one parent who earned an associate degree or higher from Utah State University (application required)
- Enroll at USU as a first-time student

## SCHOLARSHIPS AND ASSISTANTSHIPS AVAILABLE AT THE UNIVERSITY OF NEW HAVEN - CONNECTICUT

For many years, men and women from countries other than the United States have come to UNH to study and prepare for careers in fields relevant to the needs of their homelands and/or the international community. These students have added an important dimension to the cultural and academic mix on our campus. We, in turn, have worked hard to offer them a quality education, an easy-to-reach location, and a hospitable environment in which to learn and grow.

The University of New Haven offers generous scholarships for academically qualified international undergraduates, partial-merit scholarships for graduate engineering students, and research or assistantships for other graduate international students.

For more information, please visit <http://bit.ly/ltBGhu> (undergraduates) or <http://bit.ly/IZGY5F> (graduates).

## THE PHILLIPS COLLECTION FELLOWSHIP AVAILABLE AT THE GEORGE WASHINGTON UNIVERSITY

The Phillips Collection, in partnership with The George Washington University (GWU), offers a Post-Doctoral Fellowship available to support research and teaching on topics in American, European, or non-western art, including photography, from 1780 to the present. The fellow is expected to be in residence in Washington, DC, at The Phillips Collection during the fall and spring semesters throughout the term of the fellowship - July 2012 through June 2013. The Fellow will be expected to teach one undergraduate or graduate course at the Phillips' Center for the Study of Modern Art or at GWU's Foggy Bottom Campus, present at least one public lecture at the Phillips, and participate in other programs and discussions with scholars, critics, museum staff, and students at the museum and the university during the fellowship.

**THE PHILLIPS  
COLLECTION**

The appointment carries a departmental affiliation with GWU's Department of Fine Arts and Art History and with The Phillips Collection. The Fellowship will carry a stipend. A generous benefits package is available. In addition, the fellowship will provide various university/museum privileges, including access to facilities, libraries of institutions, equipment, support staff, curators, and faculty.

The Fellowship is open to untenured scholars who have received their Ph.D.s within the past five years. Preference will be given to applicants whose projects focus on subjects related to the museum's areas of collecting and reinterpret the topic via innovative methodological approaches or alternative perspectives that may cross national boundaries and art historical time periods. Deadline for receipt of application is **January 15, 2012** -- please contact the Program Coordinator for application requirements and further details:

## II. News You Can Use

### LIST OF STEM DEGREES ELIGIBLE FOR OPTIONAL PRACTICAL TRAINING HAS BEEN EXPANDED

ICE announces expanded list of science, technology, engineering, and math degree programs  
*Qualifies eligible graduates to extend their post-graduate training*

U.S. Immigration and Customs Enforcement (ICE)  
May 12, 2011 - Washington, DC

U.S. Immigration and Customs Enforcement (ICE) today published an expanded list of science, technology, engineering, and math (STEM) degree programs that qualify eligible graduates on student visas for an Optional Practical Training (OPT) extension-an important step forward in the Obama administration's continued commitment to fixing our broken immigration system and expanding access to the nation's pool of talented high skilled graduates in the science and technology fields.

By expanding the list of STEM degrees to include such fields as Neuroscience, Medical Informatics, Pharmaceuticals and Drug Design, Mathematics and Computer Science, the Obama administration is helping to address shortages in certain high tech sectors of talented scientists and technology experts-permitting highly skilled foreign graduates who wish to work in their field of study upon graduation and extend their post-graduate training in the United States.

### APPS HELP STUDENTS STUDY FOR THE SAT AND ACT

The New York Times  
May 11, 2011

Teenagers have a hard time paying attention to anything that's not flashed across a smartphone screen. Yet somehow, parents still expect results when they plop an SAT study book in front of their children. Apps that help teenagers study for the SAT (or, for those not living on either coast, the ACT) are improving, as traditional test-prep businesses like Princeton Review and Kaplan refine their mobile software to compete with start-ups.
